# Shopping in Kirkbymoorside Town

At first glance there don't seem to be many shops in Kirkbymoorside, but there are actually about forty. Together with the market on Wednesdays they cover most everyday needs.

The proprietors, whose names we have listed, are usually open to suggestions and are pleased to try to get particular items that you may need. Although only a few do home deliveries, almost all have said that in an emergency, or in a special case of illness or disability, they would be willing to help out. They were wonderful during the Covid pandemic.

Talking to shopkeepers is one of the main pleasures of local shopping. Their experience, either local or from their previous varied and interesting lives, can be both valuable and interesting.

Some of our shops do most unexpected things: the chemist is licensed and supplies fine wines and spirits; the butcher is a fund of local knowledge and can tell you what time the next bus is. Moorside Store will usually produce any cooking ingredient you might want, or order it for you.

## Why a Shopping Guide?

- Shopping locally keeps money circulating in the local economy, rather than ending up in the pockets of remote corporations.
  - The Guide is evidence of support by **Kirkbymoorside Environment Group**, and much of the town population, showing how we appreciate our high street, and the personal services it offers. There are very few towns left in the UK which can offer so much.
  - The Guide is much more than just a list of shops. The indexing, which is pretty exhaustive, makes it easy to find which shops sell what – for example all the places where you can find toys, a new umbrella, or an air-source heat-pump...
  - Newcomers to Kirkbymoorside are always grateful for a copy, as it also lists all the clubs and organisations – an amazing number for such a small town.
  - This paper copy really is quicker than looking things up on your mobile phone!
- It is also available online: <https://kirkbymoorsideenvironment.wordpress.com>

## Greenstuff

We are now **highlighting** what shops are doing to help the environment. Shopping is one of the areas of life where there is more **plastic** involved than many of us would like. The Environment Group is trying to make a difference. Some actions are easy: Take a shopping bag with you and turn down offers of plastic bags. Take a re-useable plastic box to buy fish or meat, and pop it straight in the fridge. Use scoop-and-weigh shops. There are now plastic-free alternatives such as washing-up brushes, toothbrushes and toothpaste tablets in glass jars. It soon becomes a habit to keep a basket/cloth bag in the car. See how little plastic you have to throw away at the end of each week. Of course, with plastic there is no 'away' - it's here for ever.

## Moors Gateway Rotary

Our motto is 'Service before Self' and Rotary has been instrumental in raising millions of pounds to support charities throughout the world.

Prospective new members are always welcome at one of our informal meetings which could be at the Kirkbymoorside library or at a local pub/restaurant. We also enjoy visits to theatres and museums. Talk to us about Rotary.

Do you find it useful?

The next update will be in 2024 - we'd welcome new ideas.

**Energy & Building Group** helps people in Kirkbymoorside to save energy and cut their heating bills. Thermal Imaging Camera available. Community energy co-operative company set up 2013.
